sociogenomics has rapidly become one of the trendiest sciences of the new millennium practitioners view human nature and life outcomes as the result of genetic and social factors in social by nature catherine bliss recognizes the promise of this interdisciplinary young science but also questions its implications for the future as she points out the claim that genetic similarities cause groups of people to behave in similar ways is not new and a dark history of eugenics warns us of its dangers over the last decade sociogenomics has enjoyed a largely uncritical rise to prominence and acceptance in popular culture researchers have published studies showing that things like educational attainment gang membership and life satisfaction are encoded in our dna long before we say our first word strangely unlike the racial debates over iq scores in the 70s and 90s sociogenomics has not received any major backlash by exposing the shocking parallels between sociogenomics and older long discredited sciences bliss persuasively argues for a more thoughtful public reception of any study that reduces human nature to a mere sequence of genes this book is a powerful call for researchers to approach their work in more socially responsible ways and a must read for anyone who wants to better understand the scholarship that impacts how we see ourselves and our society

a history of the greek and roman world first published in 1926 presents the story of graeco roman antiquity from its earliest recorded origins to the height of the roman imperium it aims to bring into prominence the internal dynamism political cultural intellectual and aesthetic which animated the ancient peoples at different periods of their history and to draw attention to the physical socio economic and religious conditions under which they lived written in a style which will likely be unfamiliar to modern readers grundy s historical portrait is painted with broad brush strokes offering not only compelling narrative but also incisive commentary on the individuals and societies which occupy the foreground a history of the greek and roman world will be of interest for the general enthusiast as well as students who may value such a radically different approach to the interpretation of antiquity compared to the conventions which prevail amongst contemporary

scholars
